SIXTH STREET SIDEWALKS UP

Opinion Prevails To Let Go Till Pavement of Street is Taken Up--- Little Wrangle With The Service Board.

The city council held an hour's session Tuesday night and transacted business of minor importance.

The \$50,000 bond of the Coshocton National bank, which has been made the depository of the city funds, was accepted, an ordinance to establish a grade on Sixth street between Walnut and Main streets was given its first reading, an ordinance providing for a watchman at the Cambridge street crossing of the Wheeling and Lake Erie railroad was passed, the fireworks ordinance was revived and discussed, as was the North Sixth street sidewalk ordinance, and other routine matters were brought up but the session as a whole was an uneventful one.

President Weisner rapped for order at 7:30 and Clerk Wimmer read the minutes of the previous meeting. All the members were present.

A resolution was read accepting the Coshocton National bank's bond, which is signed by M. Q. Baker, T. L. Montgomery, E. O. Selby, W. A. Himebaugh, W. R. Pomerene, E. H. Wilson and F. E. Pomerene.

The condition of the bond is that the bank shall pay 3.90 per cent interest on the average monthly balances of the city's funds.

The ordinance to establish a grade on Sixth street was taken up next.

Mr. Crawford has been urging the council for some time to take up this matter. The passing of the grade ordinance would be a preliminary step toward improving the street but some of the members did not think it would be any use to pass this ordinance unless the paving should be gone ahead with also.

Solicitor Hahn volunteered to examine the tax duplicate and report at the next meeting just how much of an assessment each piece of property between Walnut and Main streets will stand. The matter was therefore tabled until Mr. Hahn investigates.

SAN DOMINGO WANTS UNCLE SAM TO HELP

President Roosevelt Issues Statement Defining Arrangement.

[By Telegraph to The Age.]

Washington, March 29.—President Roosevelt decided to accept the proposition of the Dominican government, made through Minister Dawson, for the control of the finances of that republic with a view to setting aside a portion of the revenues of the republic for the payment of its debts. The officers who will collect the money and hold it will be appointed by the Dominican government but the names of the men selected will be referred to this government for approval.

President Roosevelt sent the following instructions to Acting Secretary of State Adams:

"I direct that the minister express acquiescence in the proposal of the government of Santo Domingo, pending the action of the United States senate upon the treaty, to the end that in the meantime no change shall take place in the situation which would render useless its consummation or bring complications into its enforcement. The secretary of war will present for nomination by the president of the Dominican republic, men to act in the positions referred to, in both the northern and southern ports. The utmost care will, of course, be taken to choose men of capacity and absolute integrity, who, if possible, shall have some knowledge of Spanish. All the moneys collected from both the northern and southern ports, not turned over to the Dominican government, will be deposited in some New York bank, to be

ARMOUR'S MAN HELD ON BAD CHARGE BY COURT

General Superintendent Beef Trust Said to Have Tamed With Witness.

[By Telegraph to The Age.]

Chicago, March 29.—Thomas J. Connors, general superintendent of Armour & Company, was indicted by the federal grand jury on a charge of interfering with a witness summoned to appear before the jury. He was arrested and brought to the grand jury room, where he was released on \$5,000 bond. The indictment charges that John E. Shields of Brooklyn, N. Y., a former employee of Armour & Company, and who testified before the grand jury in the so-called "beef trust" investigation, was approached, favored and entertained by Mr. Connors and specifically states that on March 25 the offense upon which Mr. Connors was indicted occurred. It is also charged that Shields was given the use of Armour & Company's offices to transact his business while in Chicago and also the use of a private telephone wire in the office of the packing company. Another allegation is that Mr. Shields was entertained by Connors and that

Prairie Fire Ravages Farms Southwest of The City

A genuine prairie fire raged on the Biggs farm, the Eckles farm and the M. G. Heck farm all day Tuesday.

Some brush was being burned by Richard Eckles on his mother's farm and in some manner the fire got the

start of him and spread like wildfire. Several men fought it all morning but it spread onto the adjoining farms in spite of their efforts.

At noon Albert Finlay, who lives on the Heck farm, and a number of others battled with the fire but it

was after four o'clock before they got it under control.

A great deal of fencing was destroyed but fortunately no buildings were reached as the men were able

Washington, March 29.—The profound regard cherished by the American government for the late Senator Don Manuel De Azpiroz found suitable expression at a religious service in his memory held at St. Matthew's church, which was attended by the president and Mrs. Roosevelt, members of the cabinet, the entire diplomatic corps, the supreme court, senators and members of congress and many other officials and personal friends of the deceased ambassador. The body of the envoy was carried on a caisson from the embassy to the church, accompanied by a military escort. Following the body were the family and a few intimate friends who attended the brief services at the vault where the body will remain until taken to Mexico for final interment. The Mexican government has accepted the offer of a warship and the body will be carried on the Cruiser Columbia at a date yet to be fixed.

Ottawa, Ont., March 29.—Senator Powers, former speaker of the upper chamber, said in the senate in moving for papers in connection with withdrawal of imperial forces from Halifax and Esquimaux, that Canada and the mother country were drifting apart. The withdrawal of the imperial troops, he believed, would be followed by the withdrawal of a governor general. He referred to the Alaskan boundary decision, and other questions as factors in loosening the ties which bind the empire together. Mr. Scott, leader of the senate, said the papers would be brought down. He agreed with what had been said by Senator Power.

St. Petersburg, March 29.—It is stated with authority that the Russian government has outlined conditions under which the empire is prepared to negotiate peace with Japan. It is also averred that the good offices of the United States and France have been employed to attain this end. In all quarters it is now believed the question of peace has assumed practical shape.

The entire absence of private and press telegrams from the front, together with a laconic message from General Linevitch dated Harbin, and saying "No reports from the armies," evokes fears in certain quarters here that communications have been cut and that the Japanese have turned the Russian positions.

Grand Duke Vladimir is quoted as saying he doubted the existence of any real revolutionary movement, but that the government is watching the situation carefully and if the people again raise their hands against the emperor they will receive greater punishment than before. Another New Industry

A new industry is to be added to Coshocton soon as the outgrowth of a clever patent conceived by O. Tverdahl, of Mineral City, and worked out by P. J. Haldet, of this city.

It is known as the Automatic Polishing machine and has just been completed at the plant of the Coshocton Machine company. The working of the new machine was demonstrated to an awestruck Tuesday audience. The machine has been

sold to the Dover Manufacturing company.

The purpose of the machine is primarily to polish the bottom of sad irons and it has proved to be one of the most successful pieces of mechanism imaginable it will do the work of

Six Hand Polishers

and can be operated successfully by one man. Within the last few days four of the largest and best manufacturers in the United States have

come from a great distance to see the machine in operation. They were requested to point out any defects and tell of any inefficiencies for doing the work for which it was intended and they were unanimous in their opinion that the machine did its work equally as well as any hand polishing machine. Most of them ordered one of the machines.

House Work

Need Not Wear Her Out

The drudgery of house work seems never ending to tired-out, dispirited women who suffer from female complaints or irregularities. Inflammation and ulceration of the womb and ovaries cause fearful bearing down pains which are aggravated by much standing on the feet, and lifting necessary in house work.

But let no woman despair of relief from this torture. That famous tonic reconstructor of diseased or disordered female organism,

Lydia E. Pinkham's Vegetable Compound

has cured more than one million American Women, and it will cure you. When monthly periods are painful or irregular, when backaches and headaches drive out all ambition, Lydia E. Pinkham's Vegetable Compound will bring back health, strength, and happiness.

It Gave Me New Life and Vigor

DEAR MRS. PINKHAM:—Last spring, while we were moving, I did considerable more work than my strength permitted, and, having mental trouble at the same time, my health broke down completely and I found myself unable to rest or eat. My nervous system became shattered and I was pale and emaciated and had to take to my bed. My sister advised me to try Lydia E. Pinkham's Vegetable Compound, and, although I had no faith in patent medicines, I was so miserable that I would take anything for relief. I found that it made a complete change for the better, inducing appetite and restful sleep and imparting new life and vigor to my entire system. I gained nearly fourteen pounds, my complexion looked fresh and clear, and my best friends were surprised and pleased at the change and could hardly credit the fact that Lydia E. Pinkham's Vegetable Compound had accomplished it.

"York State Folks"

Among the many attributes which distinguish mankind, none are a higher order than veneration for the true and love for the beautiful. The former regulates and refines the moral feelings and the latter supplies a never failing source of rational enjoyment. Their influence are almost intimately combined, for in appreciating truth we are taught to discover beauty. An opportunity for theatre goes to surfeit their love of the good, the true and the noble will be offered at the 8th Street Theatre next Thursday evening when that charming pastoral play "York State Folks" will be presented in Coshocton.

"York State Folks" has grown to be the greatest success in its line. Critics everywhere it has been offered, have been enthusiastic in its praise. The theatres have been too small to hold the people, and the "standing room only" sign probably has been used more frequently by "York State Folks" than by any other attraction on the road.

As a play it is unrivaled in the pe-

culiar field it occupies. There are many rural plays but "York State Folks" is unexcelled; it is a play pure and simple. And it is unlike any other ever seen, in that it possesses not that which has ever been supposed to be a prime factor of any and all plays—a villain. Neither is there the heretofore inevitable wronged maiden. There are no lost wills, mortgages or shooting affairs. It is a welcome departure from the old beaten path of all things dramatic.

The company is the original, including James Lackaye as Simon Peter Martin, the czar of the village, the man who "carries his worst side out." Ray L. Royce as Myron Cooper, the old organist; Lem Dunbar, the horse trader, is impersonated by Harry Crosby; Mrs. Sidman will again be seen as the neighbor's girl; Osburn Searle as the city music teacher; Samuel Burton and John Saunders as the lazy workmen about the shop; Randolph Currie, Lillian Rhoades, the clever children and all the others who assisted in making "York State Folks" a success on its original presentation.

The scenic effects and stage accessories are practically new this season, the scenery being the work of Arthur Voegtlin, and it is said to be the best work of this clever artist has turned out.

ARRESTED.

Continued From Page One.

Connors suggested to the proposed witness that he should testify favorably to Armour & Company, and not to tell all that he knew concerning the matter under investigation. The second count of the indictment charges that Mr. Connors did not limit his attempt at influencing witnesses to Mr. Shields, but that other witnesses who have not as yet appeared in Chicago have been approached by him and attempts made to influence them as to the nature of testimony they would give before the jurors.

When the special grand jury convened last week Shields was one of the first witnesses to appear. He came to Chicago from New York. He had testified before a grand jury sitting in New York and there is said to have divulged facts which led the federal officials to believe him in possession of many other details concerning the question under consideration. He was requested to come to Chicago and the federal officers were instructed to watch the man closely. Two men were detailed to watch Shields. One of these secret service men obtained Shields' confidence and thus learned facts which doubled the precautions of the government to prevent any of the witnesses from being coached. Shields was followed by these detectives and it was soon learned that he frequented the offices of Armour & Company, having a private key at his disposal and answering all his private correspondence there. Shields was followed to theaters, dinners and meetings in downtown hotels, every move that he made being closely watched.

Twenty thousand roses will bloom on the grounds of the Lewis and Clark Exposition this summer. For the first time in the history of the exposition, the roses will be planted in the grounds of the exposition.

Two Suicides at a Hotel.

Cleveland, O., March 29.—Henry L. Woodward, an attorney of New York city, and Charles A. Brouse, a traveling salesman for the National Supply company of Toledo, O., committed suicide in their rooms at the Hollenden hotel. The coroner's verdict in each case gives despondency over domestic and business troubles as the cause of the suicide. Both men had used a pistol and had sent a bullet into their heads in almost the same spot, death in each case having been instantaneous. Woodward, according to a letter found in his possession, formerly lived at Marietta, O.

Found Guilty.

Lima, O., March 29.—After a session of five hours the jury in the case of the state vs. W. W. Leighton, former president of the Lima Savings and Trust company, agreed to a verdict of guilty. Leighton's bond of \$5,000 permits his liberty until the court disposes of the motion for a new trial, which was filed.

Weary of Life.

Cumberland, O., March 29.—E. K. Frye, a well-to-do farmer, suicided by hanging himself to a beam in his barn with a rope. Despondency resulting from illness is assigned as the cause. He was 38 years old and leaves a wife and several small children.

Postoffice Burns.

McArthur, O., March 29.—The store and residence of J. R. Ratcliff and the postoffice at Eagles Mills were destroyed by fire with a loss of \$4,500; insurance \$2,950. A small portion of the household goods was all that was saved.

Judge Taylor Stricken.

Warren, O., March 29.—Judge E. B. Taylor of this city suffered a stroke of apoplexy. He is 82 years old and served 13 years in congress, succeeding President Garfield in that body. He was in active practice and in his office when stricken.

Panhandle Report Shows Big Business Last Year

The following interesting excerpt is clipped from the annual statement made by President Cassatt to the stockholders of the Panhandle railway company:

The freight traffic of the past year shows a decrease in volume as compared with the previous year, due to the general depression in business prevailing during the first half

of the year, the decrease in the number of tons handled being \$41,295 or 2.47 per cent., while the tonnage mileage decreased 138,906,197 or 4.60 per cent and the freight revenue decreased \$1,122,184.19, or 5.41 per cent.

The passenger mileage increased 38,520,708 miles or 12.26 per cent, and the passenger revenue increased \$372,499.84 or 5.72 per cent, while

the number of passengers handled decreased 73,559 or 5.41 per cent.; this was due to the long haul travel to the Louisiana Purchase Exposition at St. Louis.

After providing for all charges and liabilities the net earnings were sufficient to provide for the regular dividend of 4 per cent. on the preferred stock and a dividend of 3 per cent upon the common stock.

propositions for a dishonorable peace. General Batjanoff, the new commander of the Third Manchurian army, is one of the old school of the Russian army, having commenced his military career in 1855. He served with distinction in the Russo-Turkish and Crimean wars in the fifties, in the Asiatic campaigns in the sixties and in the Russo-Turkey war of 1878. He is 70 years of age, but active and energetic. It is noteworthy that he does not belong to the general staff, as also do not Generals Linovitch, Kuropatkin and Kaulbars. General Bilderling probably will reassume command of his corps, though he has been blamed to some extent for the defeat at Mukden by defective dispositions of the Third army during the retreat from the Shakhe river and permitting the Japanese to break through Fu Pass just at the moment when Kuropatkin, personally leading the strategic reserves of sixty-five battalions, was rolling up Nogai's right flank and threatening to sever the Third Japanese army from Oku. This destroyed the last hope of winning the battle and necessitated the quick retreat, in which the Second and Third armies suffered so heavily. Kuropatkin after the battle severely censured ten generals for failure to execute orders. It now develops that Bilderling was included in the number.

Russian Agent Protests.

London, March 29.—M. What Japanese Minister Says.

London, March 29.—"When peace negotiations commence it will be between Russia and Japan direct and not through an intermediary," said Minister Hayashi. Mr. Hayashi said he believed that France was trying to influence Russia to open negotiations for peace. "So far as I know," he said, "no negotiations have begun, but when Russia is ready to make terms Japan will be happy to consider them." Minister Hayashi repeated his previous statements that Japan is not noticing peace rumors but steadily preparing to prosecute the war to the bitter end.

"This action is rendered necessary by the peculiar circumstances of the case. The treaty was concluded with Santo Domingo at Santo Domingo's earnest request, repeatedly pressed upon us, and was submitted to the senate because, in my judgment, it was our duty to our less fortunate neighbor to respond to her call for aid, inasmuch as we were the only power which could give this aid."

Intimations of a move against President Morales of San Domingo, fomented by exiles from that country, have reached the state department. The affair, however, is not giving the officials here any uneasiness as they now feel free in view of President Roosevelt's acceptance of the Dominican government's proposition to control the finances of that country, and it is stated will assist President Morales, if requested by the latter, in putting down any movement which is a menace to its best interests. It is understood that General Bura and those with him have been in the island of Porto Rico. Their movements are known to the state department and when they left that place several days ago their departure was promptly reported to Washington. The navy department has several vessels in Dominican waters and under direction from the state department, if requested to do so by President Morales, will lend its cooperation in preserving the peace of the country so that

The Fireworks Ordinance
which was shelved last fall was dragged from the closet and read again. Solicitor Hahn had scratched out some of the clauses which were objectionable to the council but it was still too sweeping in its provisions and Mr. Wisenbush and Mr. Craig mentioned parts which they thought should be eliminated.
For instance they thought the burning of all rubbish should not be prohibited.
Mr. Robertson thought the ordinance ought to be passed as it contained many good features. He thought the Fourth of July business was carried to far as a rule and restrictions ought to be placed on the firing of giant crackers and other explosives.

Mr. Denzer and Mr. Pharon expressed themselves as in favor of the good old fashioned Fourth of July and did not believe in hampering the youth of Coshocton in their ardor to celebrate. Mr. Denzer thought the fireworks was all right but he opposed the obnoxious firing of blank cartridges and the canes which were so much in evidence last July. The request was made for a committee of three to investigate the matter. An ordinance for the construction of a five and one half foot sidewalk was then read. It provided that Mrs. McManus

"Nervous Headaches—Run Down."

Tired, sick nerves cause nervous headaches. The nerves stop doing their work properly. They protest against neglect and abuse. Their tired, sick condition is shown in many ways, sometimes one way, sometimes another. Headaches, "unstrung," "worn out," "run down," "nervous," "blue," all warnings from sick nerves.
Health, vigor, determination, courage—in fact, all that makes life worth living depends upon a healthy supply of nerve force.
Paine's Celery Compound makes new Nerve Force, it revives the old force and makes new. It not only does this, but by strengthening the nerves that control all the organs of the body, it cures the real cause of headaches, neuralgia, rheumatism, malaria, and the many diseases coming from a run down condition of the nerves.
For 18 years Paine's Celery Compound has been the most universally used nerve vitalizer and tonic in the world. For 18 years—think of this fact and realize what it means.
Read the experience of Mrs. L. F. Mulray after La Grippe:

"Following a severe attack of La Grippe my general health seemed to be seriously affected. I suffered from constant nervous headache and was so unstrung that everything irritated me until I was in a precarious condition. I also was troubled with sleeplessness and would rise in the morning more weary than when I went to bed. As my medicine did not seem to help me any, the doctor advised a complete change, but, as I was unable to go away, a neighbor advised me to try Paine's Celery Compound. I used it faithfully for a week, feeling that I daily grew better and stronger and my health kept gradually improving until I had used three and a half bottles, when I was in perfect health, with no trace of my former troubles. A number of my friends who saw what Paine's Celery Compound had done for me have used it since, and they all feel as pleased with results as I am. Yours very truly,—Mrs. L. F. Mulray, Fifth and Mercer streets, Seattle, Wash. Treasurer Skoogay Country Club.

Thousands of grateful patients tell of the unflinching effect of Paine's Celery Compound as a nerve vitalizer and tonic. Physicians, the world over, use and prescribe it and testify to wonderful cures.
One bottle will prove its wonderful properties—it gives almost instant effect.
Try Paine's Celery Compound to-day. It braces you up at once. See how much better you feel. See how much more easily the trials roll away. Let Paine's Celery Compound strengthen and restore your nerves, nourish your system, purify your blood and help you back to vigorous, buoyant health.
Remember this—Paine's Celery Compound is the prescription of one of the most famous physicians America has ever known—Prof. E. E. Phelps, of Dartmouth University.
All reputable druggists recommend and sell Paine's Celery Compound.

SOCIETY CHATS

THE CALENDAR.
Today—Mrs. Collier and Mrs. Crawford are entertaining the members of the Woman's club this afternoon at Mrs. Collier's home.
Mrs. John Ricketts entertains this evening for Miss Haddon.
Tomorrow—The Christian Endeavor society of the M. P. church has a social at the home of Wilbur Barton.
The Junior league of Grace church has a spelling bee at the church.
District number two of the U. B. church has a called meeting in the evening at the home of Mrs. Hoffman.

Choral Cooking Club.
The Choral Cooking club held a charming meeting on Wednesday evening with Mr. and Mrs. Raif of Walnut street. The dinner served was a delicious one and covers were laid for none in addition to the club members.

U. B. Social.
The social which was given by district three of the U. P. church on Wednesday evening at the home of Mr. and Mrs. Speck on Main street was quite a success not only socially but financially. It was planned to have an electric social but it was found impracticable to carry out the plan so it was abandoned and the evening was a purely social one.
About eleven dollars was made.

Seven Piece Orchestra Tonight.
The Shepherd-Newton orchestra, seven strong, will play for the regular dance at Forbes' hall this evening.

Miss Adele McClure Entertains.
Miss Adele McClure will entertain next Wednesday evening at her home on Main street.

Eastern Star.
Five new members were initiated into the mysteries of the Eastern Star on Tuesday evening. Several more will be received at the next meeting which shows the flourishing condition of this society.
Dainty refreshments were a feature of last night's meeting.

For Miss Haddon.
Mrs. John Ricketts will entertain a few girls at cards this evening at her home in the Schalk building the guest of honor being her cousin, Miss Alice Haddon of Cleveland.

Enjoyable Card Party.
Mr. and Mrs. J. J. Rose gave a very enjoyable card party on Tuesday evening at their home on Chestnut street. Progressive pedro always means informality and pleasure and last evening's gathering of friends seemed usually full of both those characteristics. Mrs. Rittenhouse scored the greatest number of progressions among the ladies and was given a gorgeous bunch of carnations and Dr. McCurdy, Mr. Clarence Hay and Mr. James Preston cut for the deck of cards which was the gentlemen's trophy. Dr. McCurdy was the lucky man. Mrs. Rose was assisted in serving the refreshments by her little daughter, Phyllis, Mrs. Carl Herbig, Mrs. Ezra Lynde and Miss Essie Rose.
The guests included Mr. and Mrs. M. A. McConnell Mr. and Mrs. John Ricketts Miss Alice Haddon of Cleveland Dr. and Mrs. McCurdy Mrs. Sprague Mrs. Frank Hay Mr. and Mrs. H. C. Herbig Mr. and Mrs. Townsend

Rathbone Sisters.
The social meeting which the Rathbone Sisters held on Tuesday evening with the families of the members of the order as the invited guests was a great success. The routine business was transacted first and at its conclusion a delightful program was given. It was participated in by Miss Cairnes who gave a number of selections, some especially for the little folks and others which appealed particularly to those children of larger growth. Miss Owens also recited several times among others being a selection from Mrs. Wiggs of the Cabbage Patch. Miss Martha Zehabitz rendered a number of instrumental selections and little Miss Thelma Ward sang delightfully.
The evening ended with delicious refreshments. The committee in charge was Mrs. Darnes, Mrs. Foster, Mrs. Ward, Mrs. Milligan and Mrs. Shank.

Pleasant Evening.
The ladies of District No. 1 of the Ladies Aid society of the United Brethren church met with Mrs. E. L. Beach on South Ninth street Tuesday evening. The time was spent sewing and planning for the future. Refreshments were served and a very pleasant evening was enjoyed.

Will Meet Friday.
The Roscoe W. C. T. U. will meet with Mrs. M. G. Hack Friday afternoon instead of Thursday as was originally intended.

Epworth League Social.
The Epworth League social which was given at Grace church on Tuesday evening was largely attended by the young people of the church. Miss Lura Bucklew, Miss Berry, Mr. Thompson and Dr. Davis gave a very enjoyable program and at its conclusion the company was invited to the dining room in the basement where light refreshments were served and a thoroughly social hour enjoyed. It was all a great success and was under the management of the social and literary department of which Miss Ethel Clark is the head.

Young Peoples Social Circle.
The Young Peoples Social Circle of the Eleventh Street Church of Christ met on Tuesday evening with the Misses Zoe and Ethel Shrake of North Eighth street. A game of Bible characters which was both instructive and amusing was played and there were several musical numbers too.
The next meeting of the Circle will be held in two weeks with Miss Edna Drummond of Walnut street.

Quiet Stitches.
The Quiet Stitches held their last meeting for this winter on Tuesday afternoon with Mrs. Brightman. All the members with the exception of four were present and a departure was made from the usual custom of the club in the serving of delicious refreshments.

Spelling Bee.
The Junior League of Grace church is planning for a very laughable little entertainment to be given on Thursday evening. It will be a spelling bee of the old fashioned variety and promises to be something quite unique.
In addition to the "bee" there will be music by the Sunday school orchestra and light refreshments will be served.

The basketball game which was to have been played tomorrow evening at Newark by the Coshocton high school and the Newark Y. M. C. A. has been postponed by Newark.
Miss Cairnes, the instructor in physical culture, is training the boys at the high school for a track team. The drill was held on the campus this morning.
The teachers who burn the midnight oil studying in the high school building have been bothered a great deal by uninvited visitors. The teachers have been keeping watchful eye for the offenders but as yet vigilance has been unavailing.
The program for the Junior social Thursday evening is as follows:
Music, Junior orchestra.
Piano solo, Mary Evans.
Recitation, Nora Wiggins.
Vocal solo, Mayme Burnas.
Recitation, Delisle Hanley.
Music, orchestra.

Home Study Circle.
The Home Study Circle met on Tuesday evening with Miss Dora Cave at her home on Park avenue. In the absence of the president, Mrs. Shaw, Mrs. Gault presided.
Among the current events given in response to roll call was one given by Mrs. Wendt on food preparation which led to an interesting discussion of that branch of domestic economy.

Miss Alice Judd read an article on "Benevolence of the Episcopal Church" in which the work of the charitable institutions connected with the church were outlined. The Episcopal church is especially in sympathy with home missions the foreign ones receiving comparatively little support from them.
Miss Emma Manner gave an excellent paper on "Young Peoples Church Societies" in which she took up particularly the societies represented in Coshocton. The Christian Endeavor society was first taken up; it was founded by Dr. Clark of the Congregational church of Portland, Maine and was the outcome of a religious revival in his own church 1881 was the year. At the first convention of the society six chapters were represented and when the organization was ten years old 1400 delegates attended the convention held in Minneapolis. Since that time the growth has been wonderful and societies have been established in many foreign lands.

While this society was being established others were taking definite shape and in 1891 the Baptist Young Peoples' Union was organized. The constitution of this society is so arranged that any society of young people connected with the Baptist church may be affiliated with the national organization even though the name be different.
According to Rev. Mr. Henry Date the Epworth league was launched in a storm in Cleveland in 1889. The young people of the Methodist church were already organized into societies, there were five large and flourishing ones and after much talk and prayer the five were amalgamated into the present Epworth league which has since increased steadily in membership and influence until it is the power that it now is.
The latest organization is the one connected with the Lutheran church. The organization is in a flourishing condition and the work is done in an eminently satisfactory manner.
In fact all the societies are flourishing and afford ample opportunity for the young people to begin early their work in the church.

Orethian Club.
The attendance at the Orethian club was quite good on Tuesday evening and the performance of "The Rose Maiden" or "Friday evening promises to be the same beautiful success that all the previous things given by the club have been. It is to be given in the assembly room at the library, the honorary members of the club will be invited guests and a nominal admission fee will be charged the rest.

Market Offered.
Twenty-six spaces were sold by Market Master Maple at the Wednesday morning. The price of butter and eggs remains steadfast at twenty-five and fifteen cents respectively. Butter was somewhat scarce. A tempting array of good things attracted numerous buyers.

And Wiles

Sweet Indecision — That Trip to Europe—Do Women Bribe?

"There is one almost distinctive feminine characteristic," remarked the bachelor, "a thing that you rarely see in a man. I refer to the charming (?) quality of indecision. There is no use talking, the average woman doesn't know her own mind. She changes it with the same facility that she varies her shirt waists, and without half the logic, either, for she doesn't temper her changes of mind to the conditions around her at all."

"Oh, well," remarked the girl, "a woman doesn't have to keep her mind fixed. It isn't absolutely necessary, as it would be with a business man, for instance."

That's just the trouble. She has never faced the necessity for prompt and decisive action—action that you cannot and must not change—and she doesn't see the importance of it. She is perfectly oblivious to the trouble and inconvenience she puts other people to. Did you ever see the undecided woman in a restaurant? Did you ever notice how she keeps the waiter in suspense, changing her mind every other second, to his politely veiled disgust?

And in the dry goods store: "I really don't know what I want, but I think it's broadcloth. How much is that a yard?"

"Two seventy-five."

"Oh, but, then, of course it's double width. That's what I want. It takes so much less, and yet I guess it doesn't make so much difference. Let me see the single width goods. Do I want green or gray? Well, I think I want green. No; I believe I will have

KEEPS THE WAITER IN SUSPENSE.

gray. But, then, gray soils so easily. Perhaps I'd better have green. After all, though, gray is so fashionable. Oh, well, show me the gray. But this is so narrow. Regular single width? Oh, yes, I dare say, but it looks so narrow! Perhaps I'd better get the double width after all. Let's go back to the other counter."

"Wife" and Vacation.

This is the time of the year when the ingenious little wife begins to work her husband for her summer vacation.

Too early? Not a bit of it! You don't know the game. Hubby has made up his mind to take the partner of his joys and sorrows to some cheap cool spot, but she has set her soul on going to Europe. So she begins to feel ill. She cannot eat anything at breakfast, and he leaves for the office worried, which he wouldn't be if he could see her prance off to the ice-box and nearly clean out its contents the minute the door closes after him.

The family doctor is called in, and he, worthy soul, recommends a change and suggests nervous prostration as the alternative. A sea voyage is what she needs, and, as Mrs. X. is going to Europe, why not avail herself of the chance? Thus it will be seen the doctor has been well coached. Once the Europe idea is ingrained the rest is easy. She proves to him that a trip to Europe is after all much more economical. She will need no new clothes—that is, except a tailor made or two, and they must be nice, of course. If she went to any summer resort she would need at least a dozen garments of all the hues of the rainbow. He hesitates and is lost.

Women as Diplomats.

So women offer bribes! Do they? Don't I know an artful one who needs a box of candy now and then to her dressmaker and by this sugared means manages, while paying the same price, to have her gowns made ahead of any one else on the list? And perhaps you realize what that means during the spring rush.

There is that other foxy creature who needs a theater ticket to her milliner in order that that lady may copy an expensive hat of fabulous price on the way for almost nothing.

And for such and so on, all the way down the list. Women are master politicians. They will do anything to get their own way.

The following poem, written by Mrs. V. F. Ensley and read at the Thank Offering meeting of the "Julia Bonnafield Auxiliary, Warsaw, Ohio, March 26, is by request of friends offered for publication.

Dear friends, we've glad to have you with us; It shows some interest in our theme; We hope your patience may not suffer, Nor yet in vain shall be our dream.

That you may, many of you, join us And lend your efforts to the cause Of foreign missions, remembering That Christ a missionary was.

Our object is to spread the story— The story old, yet ever new, Of Jesus love to mortals given, That brings such joy to us and you.

That we would fain have others know it, Who've never heard its words of joy; That "whosoever" of the gospel, That brings "delight without alloy."

In nineteen two, a district meeting Was held in Warsaw, as you know; And many friends of foreign missions Gathered to help the cause; and so

We went to hear the missionaries— Miss Bonnafield and Worley too, Both furloughed home from China land And many hardships had been through.

They talked of what their eyes had witnessed, They told of woes we ne'er had dreamed, Until our hearts were stirred with pity, And duty then a privilege seemed.

Then it was ten earnest souls, Determined to their service field; And organized an F. M. S. And named it Julia Bonnafield.

Sometimes our hearts had well nigh failed, As loved ones seemed to hold aloof, And failed to recognize the message That came to us through love's be-hood.

But more are coming to the front Anxious to do our Master's will; And send the blessed news abroad And thus the law of love fulfill.

From Jesus we have our commission To preach the Gospel in all lands; And though we may not go in person We can, at least hold up the hands

Of those, who leaving home and kindred, Devote their lives to this great work. We give our sympathy, prayers and money, And thus our duty do not shirk.

Our prayers and money must go together, If we would our Master please; For the cause that we pay and pray, Nor covet personal ease.

When there's so much to learn and do, That the darkness may hasten away From the lives of our sisters in other lands; And they too, may learn to pray.

That they may receive in sore troubled hearts The message of love and peace, And from the bondage of idols and caste Forever have sweet release.

Perhaps, like myself, you have honestly said "We have needy ones at home; Shall we give to the dogs the children's bread, While neglected our own shall roam?"

May the Savior speak to you as to me, Saying, "neglect neither one"— In the still small voice—"This ought ye to do Nor leave the other undone."

Shall I tell you of how the work began? Of the first W. F. M. S. Of how the work has grown and grown, And God does so richly bless.

The years now number thirty-five Since Parker and wife returned From a ten years stay in India, To a rest so richly earned.

He had been sent by the parent board; And she had observed the need Of the women there who were shut away In a sorrowful state, indeed.

And how the men no admission had To teach them the way of life; For Christian women may never know The woes of a heathen wife.

So, in Boston, she talked to some Christian friends And enlisted their sympathy strong; And she, with eight others devised a plan Whereby they should fight the wrong.

And so, the Woman's Society was born, With only nine members 'tis true; But when we consider the marvelous growth I think it paid, don't you?

That was the year eighteen sixty-six, On March the twentieth; But think of the progress, thirty-five years

The baby society I mean, Till two hundred and fifty are sent; With assistants one sixteen, Each on the Master's work intent.

To fourteen hundred the number has grown Of Bible women and teachers too; Its day schools supported are five thirty-nine, And women's colleges, two.

Over one of these Miss Thoburn presided, But this finished her work, and is now in heaven. Of training schools we have twenty-one, And boarding schools sixty-seven.

Of orphanages now, I believe there are twenty, Where many dear children are trained for the Lord. We've property too worth one and a half millions; What wonderful helpfulness this can afford.

And nineteen four was a banner year In all our fields of labor; And a half million dollars so freely given Proves truly our love for our neighbor.

We've auxiliaries numbering sixty-two hundred, All these in our precious home land; With a membership truly astonishing, In all, over two hundred thousand.

Our activities encircle the globe, Fourteen countries attest to their worth, And thousands of converts are coming each year To own Jesus, Lord of Heaven and Earth.

'Tis God's guiding hand has led to success; Through him have our labors been blessed; To own him our helper, our guardian, our all, Is this Thank Offering day's behest.

And to prove our faith by our works we each one Make an offering for some needy plan; 'Twill be wisely applied, of this be assured You may every one help all you can.

Dear sisters, we believe you will each want a part In this far reaching work of the Lord; O come let us go hand in hand, heart to heart To aid in the spread of his word.

With our prayers united we'll encircle the throne And claim God's o'er ruling care. 'Tis a trifle we ask, I am sure you will own, "Only two cents a week and a prayer."

The Growth of the Prudential.

The prosperity and progress of the great insurance organizations, such as The Prudential, to whose care is committed such a large share of the nation's savings, is a matter of financial interest to many millions of the people. As this Company alone has nearly 6,000,000 policies in force covering life insurance exceeding one billion dollars, it can be seen how the tide of public confidence has flowed in increasing volume toward this institution.

The Annual Statement of the Company, just published, brings out some interesting facts. It shows that the life insurance issued and paid during the year 1904 exceeded \$312,000,000, being the largest in the history of the company; \$13,000,000 was paid to its policy holders, bringing the total since organization to an amount exceeding \$92,000,000.

It is certainly impossible to estimate the amount of good which the distribution of this vast sum of money has accomplished for the American people who have been its recipients.

The company has at different times made changes and concessions in its policies which resulted in giving additional benefits to those insured. Wherever practicable these concessions are made retroactive; and up to the present time the company has distributed in cash dividends and other concessions, not stipulated in original contracts, and voluntarily given to holders of old policies, over five million dollars.

The financial side of the statement shows equal progress. The assets of The Prudential were increased by \$16,000,000, and the analysis of these assets, as given in the statement, shows them to be of the highest possible character. It is shown, for instance, that the bonds and stocks owned by the company have increased in value since their purchase by over \$1,400,000, and that ample security is afforded by property and collateral securities upon which the loans of the company have been made. The total assets of The Prudential now exceed \$88,000,000, leaving a surplus of \$133,000,000.

The company will furnish any information concerning its policies to those who write to the home office, Newark, N. J.

Uncle Sam's Part.

Washington March 25.—Diligent inquiry failed to develop what, if any, assistance this government had been in the way of bringing about preliminary negotiations for peace between Russia and Japan. It is known that this government for a long time has stood prepared to use its good offices in the interest of peace whenever the opportune moment arrived for action by this government without serious risk of giving offense to either of the belligerents.

Summer Terrors

An itching, burning skin disease during the hot, sultry summer weather, is a positive terror and a veritable demon of discomfort. The intolerable itching and stinging are tantalizing almost beyond endurance, and the unsightly eruption and rough, red skin keep one thoroughly uncomfortable and miserable night and day. Eczema, Tetter, and diseases of this type are caused by acid poisons in the blood, which the heat of summer seems to warm into life and renewed activity. These fiery acids keep the blood in a riotous and sour condition, and the skin unhealthy and feverish—they inflame the pores and retard perspiration, when the whole body feels like an over-heated furnace, and the escaping poison burns

TORMENTING ECZEMA.

KANSAS CITY, Mo., May, 1898.

In 1896 I experienced at times patches on the inside of my hands that itched and burned, causing much discomfort. As time went by it grew worse. I had read medicine in my early twenties (now 50 years of age) and was convinced that I was afflicted with a type of Eczema. I consulted several physicians and a number of specialists, and used several external applications, one of which was claimed to be a certain specific. I confess, however, I had but little faith in external applications, yet I used them, receiving but slight temporary relief. In February I decided to try S. S. S., and in less than a month I experienced a change for the better, and by May of that year all symptoms had disappeared, and I found myself entirely cured, and have had no return of the disease since.

or check the outflow of the burning fluids through the skin. Only persistent and faithful constitutional treatment can do this. The acid poison in the blood, which is the real cause of the eruption, must be attacked, and when the blood has been cleared of all accumulated impurities and restored to a healthy condition, then, and only then, will a thorough and lasting cure be effected, and for the accomplishment of all this, no remedy equals S. S. S., which contains all requirements for cleansing and building up the acid blood, and invigorating and toning up the system. S. S. S. completely and permanently eradicates every vestige of poison, thus effectually preventing a fresh outbreak of the disease.

Cases that have resisted ordinary treatment for years, yield to the purifying, cooling effects of S. S. S. upon the blood, and when rich, pure blood is again circulating through the system, the itching and stinging cease, the eruption disappears, and the red, rough skin becomes soft and smooth again.

SSS

Skin diseases appear in various forms—sometimes in pustules or blisters, sores, rashes, or red, disfiguring bumps and pimples—but all are caused by a bad condition of the blood, and for which S. S. S. is a safe and effectual cure. No bad effects can come from its use, because it contains no Arsenic, Potash or other harmful drugs, but is guaranteed a strictly vegetable remedy.

If you are a sufferer from some summer terror like Eczema, Tetter, Acne, Psoriasis, Salt Rheum, Nettle Rash or kindred disease, write us about it, and medical advice or any special information wanted will be given without charge.

Our Book on Skin Diseases will be sent free to all desiring it.

OLD HOME WEEK TO BE A GALA ONE

Cut out the announcement below and send it to some friend who formerly resided in this county.

OLD-HOME WEEK

COSHOCTON, OHIO,

August 7 to 12, 1905.

The purpose is for all former Coshocton residents to visit the old home the same week. It will be a glad home-coming for all, because all the old friends will be there too.

The sons and daughters of the old town and county who have emigrated to the various quarters of the earth are invited and expected back to their native land during Old-Home Week. The fires of youth and fond friendships will be rekindled and old hearts made young again. It will be a season of gladness, festivity and joy. It will survive the days of Asia Lang Syren. Remember the date and visit the old home during that week. Send your name and address to the president or secretary of the Old-Home Week society, and full information will be sent you from time to time.

G. S. McCoy, President.

See a S. Carlin, Secretary.

Send this to some friend who formerly resided in Coshocton or Coshocton county. This announcement should be sent to another and kept until it is used.

CIRCULATION When you advertise you want to reach the people. The Age not only thoroughly covers the city of Cochocton, but all the towns and villages in the county and reaches a great number of the people living on the Rural Routes.

RESULTS PAY It is results you are after when you advertise. The Age is unquestionably the best result bringer in Cochocton county. Hundreds of users are willing witnesses to the remarkable pulling powers of The Age's Want Ads.

CASH All Want Ads are strictly cash with the order, no deviation from this rule will be made under any circumstances.

MESSANGER If not convenient to call at The Age office we will send a messenger for your Want Ad. without one cent additional charge to you.

PITCHER LUCAS PLAYS WITH THE MOGULS THIS YEAR

"I think the Zanesville team is one of the best, if not the very best semi-professional team in the country, and this year they will be stronger than ever says Pitcher 'James' Lucas in a Wheeling paper. Last season we played 150 games and out of that number we won 115. That's a record we expect to even this season.

"I do not think it a wise thing for a ball player to play with a home team. The effect of the jibes and roasts of one's own acquaintances are disheartening and demoralizing on a player and knocks all the starch out of him."

HART WON

Gets the Decision in His Bout With the Colored Man.

San Francisco, March 29.—Marvin Hart was awarded the decision over Jack Johnson in a 20 round contest that went the limit, but he was far from demonstrating that he is qualified to meet Jeffries. Hart was as badly punished a man as has been seen in the ring in a long time, but he was game to the core and kept boring into the big colored man all through the fight. Johnson's much vaunted cleverness did not count for much. While he was able to hit Hart frequently, his blows did not seem to damage the white man from Kentucky. The sympathies of the large crowd were openly with Hart, who was the short ender in the betting, and every lead he made at Johnson, whether he landed or not, was greeted with yells of joy. He managed to deal the only effective blow when he staggered the black man in the eleventh round.

TWIN CITIES PUT STRONG TEAM ON THE DIAMOND

Quailley One of The Star Slab Artists—Will Be Co-Operative.

(Uhrichville Chronicle)

The Twin City Baseball association was launched at a meeting of lovers of the great national game held Saturday evening. Frank Shaffer is president and Ted Cooper is secretary. The association is to be composed of forty good and true fans, twenty from Uhrichville and as many from Dennison.

The men back of the movement are determined to give the two towns a good team and they have gone at the matter in a business like manner. The fair ground site has been leased for the season with an option for another year. At the meeting Saturday night a uniform committee was named, composed of Frank Shaffer and Harry Klar. If the present plans do not miscarry, the umpire will "play ball" about April 20. The members of the team will not receive regular salaries, but will be given the proceeds left after paying all expenses.

While the line-up has not been fully determined, the association has prepared a list of good players from which to select a winning team. It is probable the batteries will include Porcher and Kummer and Quailley and Rippeth. Among the other players suggested are: Bukey, McClelland, Long, Finley, Maxwell, Deema, Finney, Preston, Mohr, Kline, Hill and T. Edwards. Only players from the twin cities will be used.

A meeting will be held Friday night at which it is hoped to complete the list of forty.

MT. VERNON MAY STILL LAND BASEBALL TEAM

The directors of the Mt. Vernon baseball club have figured out that the sum of \$300 will yet be required before a baseball team can be supported in that city the coming summer. A large sum of money was raised last week and the directors were so encouraged that they have decided to take a few days this week in an effort to raise the remaining \$300. It is believed that this sum can be secured either today or tomorrow.

NEWARK TO HOLD FAST RACE MEET IN JULY

At a meeting of the Newark Driving Park association held Monday night, it was decided to hold a harness race meeting in Newark commencing July 4, and continuing for four days.

There will be twelve races, including a free-for-all pace and a free-for-all trot. The other races will be in pacing events, a 2:13, 2:17, 2:20, 2:27 and 2:30; in trotting, 2:18, 2:20, 2:24, 2:35, and 2:21.

The best harness horses at that time in this section of the country will be entered and the meeting will undoubtedly be an unqualified success.

The entries close on June 28.

Penn's Human Fish

Student A. B. Roe Swam 230 Feet Under Water.

At the University of Pennsylvania it is said that little Tommy Roe has gills instead of lungs.

Anybody who can stay under water a minute and twenty seconds, the students argue, swimming meanwhile 230 feet, has his work cut out to prove himself a human being and not a fish.

His correct name is A. B. Roe. Tommy merely represents the general opinion that a man only, an inch above five feet doesn't deserve a full name and should be content with a nickname as diminutive as himself.

Roe is a pupil of Professor Kistler, Pennsylvania's famous swimming instructor, and made his record under water recently at the regular weekly exhibition.

The work of the students proved two things—first, the value of the magnifying glass.

versity has in George Kistler a man who ranks with Mike Murphy as a discoverer and trainer of athletes.

To make his 230 foot swim Roe—his name calls shud to mind—had to go twice the length of the pool and a third of a length more after making the second turn.

Allowing for the time lost in turning, it is probable that the youngster would have gone 250 feet on a straightaway course.

If anybody thinks this is easy, let him try it.

The man who can swim fifty feet under water is doing about as well as the average. Every foot he goes over that distance attests his high lung capacity, his courage and endurance. It takes pluck, lots of it, for it is only a short time before the pleasurable thrill of hitting the water gives way to almost pain. The lungs burst to take in a supply of air, the head rears, the heart throbs, and a sensation of unendurable weariness seems to paralyze the limbs.

Roe is a member of the class of '05, college. He is a clever boxer and has represented his class in tournaments. As a member of the gymnastic team he shows to advantage in the tumbling and flying ring events.

Anybody who beats him at swimming will have to go under the water with a diver's breathing apparatus concealed somewhere on his person.

Roe recently told how it feels to swim 230 feet without once breathing. He said:

"Before starting on the swim I exhale and inhale several times, so as to clear out my lungs and get them well filled with fresh oxygen.

"After plunging into the water the sensation is at first very much like an ordinary dive; then comes a period when only the strongest effort of will power enables me to hold my breath.

"The ears feel as if something were being driven into them. This is a result of the pressure of the volume of water on the eardrum.

"Then the throat and chest muscles become tired from retaining the air in the lungs and from the external pressure of the water.

"A sort of wearied stage succeeds this, when the swimmer seems to forget the throbbing of the chest and the exhaustion of the arms and legs and mechanically keeps going a little longer.

"Finally nature will stand no more, and every instinct demands a rush for the surface. In a virtual explosion the used up air is expelled from the lungs, and a new supply is drawn in.

"By this stage the swimmer is not far removed from the unconscious state, and a few more strokes will bring him to the surface."

Powder Mills Blow Up.

Troy, N. Y., March 29.—Three men were killed outright and another so badly injured that he died a few hours later by an explosion at the Schaghticoke powder mills near this city. The men killed were: James White and Charles Colburn of Hazardville, Conn.; James Sprague and Albert Bartlett, the latter being new employees. The men were at work in the corning mill when the explosion occurred and the cause is not known. The bodies of three of the victims were blown to fragments. The fourth victim, White, was found 300 feet away alive, but he could not recover. It is a remarkable fact that no one among the buildings succeeded the explosion. The explosion started a great amount of smoke to windows in Valley Forge.

Boiler Exploded.

Chicago, March 29.—One man was perhaps fatally scalded and seven others were painfully burned by the explosion of a boiler at the car shops of the Illinois Central Railroad company at Burnside, a suburb. Judge E. F. Dunne, Democratic candidate for mayor of Chicago, had finished an address to the workmen and had left the building only a little while before the explosion occurred. Reports of the accident made to officials of the company in Chicago say that the explosion followed the accumulation of too much steam in the boiler while the workmen were away from their posts listening to Judge Dunne.

Attempted to Escape.

Elkton, Md., March 29.—John M. Simpkins, a convict in the Maryland penitentiary for horse stealing, was brought herue from Baltimore for trial on charge of murdering Albert T. Constable, a leading attorney, the latter crime having been confessed to the warden of the penitentiary. Simpkins was taken into the grand jury room for dinner, his handcuffs being removed to enable him to serve himself with food. As soon as he was free from the manacles Simpkins attempted to escape from the room by a window, but was seized by Warden Weyler and held while two detectives handcuffed him.

A Great Sporting News Journal.

The illustrated special sporting section of the Sunday Chicago Record-Herald thoroughly deserves the attention of everyone interested in sporting news. It is always beautifully illustrated and embraces four full pages, covering with the thoroughness that satisfies to the utmost the whole realm of sports. Baseball news, racing news, bowling news, cycling news, pugilistic news, golf news, yachting news—all the sporting news is given the greatest degree of fullness and interest. The sporting page of the daily issue is also exceptionally popular—a self evident fact to those who have noted the general vogue of The Chicago Record-Herald among sporting men.

Lipton to Try Again.

Chicago, March 29.—Alexander H. Revall of this city received a letter from Sir Thomas Lipton written on board of Sir Thomas' yacht in the Indian ocean. The writer says he is determined to have one more try for the America's cup, the famous "old mug," as he called it. The only difficulty in the way was to find a designer, but he will give the matter attention as soon as he returns from Ceylon. He ended his letter by saying that he would be very much disappointed if he could not arrange for another contest next year.

Lancaster's Line Up.

The probable line-up of the Lancaster team for the coming season will be as follows:

Carney, Kingor or Mute, catcher. Beverly, Farrell, Campton, Ramsey, as pitchers.

Willinger, first base

Murray or Heller, second base.

Locke, short-stop.

Matz, third base.

Letcher, left field.

Heller, center field.

Abbott, right field.

For Wesleyan's New Gym.

Delaware, O., March 29.—With 500 students hatless and coatless, tugging at the big rope which drew a plow, and giving the college yell with each effort, ground was broken for the new \$80,000 gymnasium of Ohio Wesleyan university. President Whitelock of the university guided the plow. A furrow 150 yards long, the length of the new structure, was run.

Criterion Base Ball Club

A number of the boys of the Criterion club met in their club room Tuesday evening to take steps toward the organization of a ball team but as the number present was not large enough it was found necessary to postpone the organization until next Friday evening when another meeting will be held.

Baseball at Kent.

The baseball fever has again taken hold of the Kent people, and they are scratching around for material for a team. They will not enter as fast company as they did last season but they will be represented on the diamond, and will try and carry off a few laurels in the minor circles.

Zanesville's New Bleachers.

New bleachers, 96 feet in length and five tiers deep, will be erected along the south side of the baseball diamond at Gant park. These bleachers, it is estimated, will seat in the neighborhood of four hundred and will be welcomed by the fans in general, who were compelled to stand throughout the games during the past two seasons.

Wrestler Injured.

Lima, O., March 29.—After 45 minutes of the most exciting wrestling ever seen in this city, between Al Ackerman of Fostoria, and Eddie Barr of Cincinnati, the contest was suddenly ended by Barr being shoved from the stage by Ackerman and so seriously hurt that he was accompanied to his hotel by a physician. Ackerman was working to release himself from a dangerous hold which Barr had on him, and during the struggles of the two men Barr was sent flying into the orchestra circle, falling six feet and fracturing two ribs. Referee McDonald declared the bout a draw.

DEATH CLAIMS MRS. SMITH AFTER MONTHS OF ILLNESS

Noble Life Closed by Ravages of Disease
 ---A Christian Career.

Mrs. Margaret Smith, wife of Maro Smith, died at her home on East Chestnut street at 5:30 o'clock this morning, after months of patient suffering from a complication of diseases. Death was a triumphant close to a life of good works and years of Christian fortitude and endeavor. For many months Mrs. Smith has been ill, and for the last three months has been bedfast. For years she has suffered from tumor and had grown so weak that an operation could not have been withstood. Her death leaves a place difficult to fill in the hearts of hosts of loving friends she left behind. Mrs. Smith was the daughter of the late Nicholas and Caroline Schott, and was born in Roscoe November 1, 1852. On October 21, 1874, she was united in marriage to Maro Smith. No children have ever blessed their union. They have dwelt in Coshocton during their married life. Twenty years ago Mrs. Smith united with the Presbyterian church and her life has been one of exemplary Christian attainment. Her sweet patience during her illness was remarkable. Beside a host of friends Mrs. Smith leaves the following brothers and sisters, overcome by the affliction of her talking away: Mrs. J. C. Douglas, of Coshocton; Mrs. Robert A. Greer, of Roscoe; L. D. Schott, of Roscoe; M. J. Schott, of Barborton. The funeral services will be held at the late residence Friday afternoon at 2:30 o'clock. Rev. Mr. Hamilton officiating. Interment at Roscoe cemetery. Death thus removes a devoted wife and earnest Christian woman whose life of 52 years has made the world the better for her having lived.

Decisions by The Supreme Court

The supreme court Tuesday morning handed down a decision sustaining the action of Secretary of State Laylin in the appointment of members of the board of deputy supervisors of elections in Cuyahoga county. It will be recalled that after the Hynes law went into force, Secretary of State Laylin turned down the recommendations for the appointment of this board made by Tom L. Johnson committee of the Democratic party of Cuyahoga county, Charles Gongwer and Thomas Coughlin, and appointed Frank Gentsch and John J. Fitzgerald. The court Tuesday morning ousted Gongwer and Coughlin and inducted into office Gentsch and Fitzgerald. The court handed down a decision in the case of W. S. Lemert against Amelia Lemert, coming from Muskingum county, affirming the decision of the circuit court. This case involves the question of whether a discharge in bankruptcy under the national law relieves a divorcee from the payment of alimony decreed by a previous judgment in the State courts. This decision holds that it does not relieve the divorcee and his property is held under attachment for the satisfaction of these payments. Glenn Case Goes Up. The Supreme court Tuesday morning granted the motion for leave to file a petition in error in the case of Ellsworth Glenn against the State, coming from Franklin county. Glenn was arrested for attempting to practice dentistry without having complied with the state dental law and was fined \$50 and costs. He carries the case up and it will be brought to the supreme court for a decision as to the validity of the act.

NEW FACTORY

Continued From Page One. Norwegian, who is interested in the manufacture of sad nouns

Conceived the Necessity for a polishing machine and brought the idea to the Coshocton Machine company and Mr. Haldet developed the present machine. Last December the attention of J. J. Rittenhouse was called to the machine and he purchased a one-half interest in the patent and is financing the manufacture. The machine is not a complicated affair. The sad nouns are simply placed in forms which are fed through a series of a screw. Eight wheels of different grit polish the iron as it passes beneath them. The first three wheels are cartumund wheels, the next four are canvas and the last one is felt. The flings are carried away by means of

An Exhaust System. From twelve to fourteen horse power is required to run the machine and it is capable of polishing about sixteen tons per day. At present the machine is made on contract by the Coshocton Machine company but it is the intention of Messrs Rittenhouse, Tverdahl and Haldet

T. Incorporate as a company to be known as the Coshocton Automatic Polishing machine company. The machine has been under construction for the last four months but the men in charge desired that nothing concerning it be made public until the machine was completed and it was demonstrated that it was a complete success.

A Fair Example

We were called upon today by a lady who desired to know about that wonderful new rose. The BABY CRIMSON RAMBLER. She stated an Agent had taken her order for one for \$2.00. When we showed her ours laden with from 10 to 20 blooms, and only asked her \$1 she could scarcely believe it. This is the daily experience of persons who order roses and flowers of agents who are not growers and know no more about the plants than the buyer. When you want roses or flowers for your lawn—a hedge, a nice bed made up, your cemetery lot planted and cared for, your lawn seeded with select lawn grass seed, a fertilizer used that is superior to manure, which sows a crop of weeds, or any choice ferns or cut flowers for funerals, weddings or the sick room call on the FLOWER EXCHANGE Headquarters for everything in Flowers, Flower Seeds and Bulbs.
